DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 09/20/10 has been entered.

Allowable Subject Matter

2. Claims 1 and 10-19 are allowed.

3. The following is an examiner's statement of reasons for allowance: With respect to independent claims 1, 10 and 19, the instant invention is directed to a broadcast system and reception apparatus for processing broadcasting digital contents and attribute information. The relevant prior art of record, such as **Ismail et al (6,614,987)** discloses television program recording with user preference information. **Sumita et al (6,581,207)** discloses information filtering system and method. **Aggarwal et al (6,408,295)** disclose system and method of using clustering to find personalized associations. **Alexander et al (6,177,931)** disclose systems and methods for displaying and recording control interface with TV programs, video, ads information and program information. **Youman et al (5,629,733)** disclose electronic television program guide schedule system and method with display and search of program listings by title.

However, neither **Ismail, Sumita, Aggarwal, Alexander nor Youman** and any of the cited references teach or suggest, alone or in combination the feature of "...performing a calculation between a vector A related to the attribute information and the vector S; and determining whether to select the digital content based on the result of the calculation, where vector S is generated by using vector A for a program which is reproduced for a specified period of time or longer, and wherein vector S is generated by changing a weighting factor for a reserved program and a real-time reproduced program" as recited in combination with other features of independent claims 1, 10 and 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Cragun et al (5,859,662) disclose apparatus and method for selectively viewing video information.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Annan Q. Shang** whose telephone number is **571-272-7355**. The examiner can normally be reached on **700am-400pm**.
